Windssocks are on a 10" ring (horizontal orientation) - suspended by a four part harness. Streamers range in length from 17" (short) to 31" (long) making the total length of the windsock from 34 to 48 inches.

Windcircles are an innovative line from Wind Related. The two sides of each design are framed within a 10" or an 18" ring. A swivel snap is attached to a single grommet, allowing the windcircle to rotate in even the slightest breeze. All designs have free moving pieces that give added interest to the design.
